## Quick Guide

- Computer Engineering student with a strong foundation in **MERN**, **Data Structure** and **Problem-Solving**.

## Education

**All India Shree Shivaji Memorial Society IOIT** Dec 2021 - May 2025  
*BE in Computer Engineering (Pursuing)*

- CGPA: 8.2/10 (till sem 7)

**Higher Secondary** 2020 - 2021

*Kendriya Vidyalaya, INS Shivaji Lonavala*

- Percentage - 91.8 %
- Ranked **Third** in College

**Senior Secondary** 2018 - 2019

*Kendriya Vidyalaya, INS Shivaji Lonavala*

- Percentage - 85.4 %
- Ranked **Fourth** in School

## Experience

**Web Developer** Remote  
*NoQs Digital Pvt. Ltd.* Jan 2024 - Feb 2024

- **Developed** a **e-commerce platform** using **MERN**, achieving **100% cross-device compatibility**.
- **Designed** a user-centric application ensuring **seamless performance** and **enhanced accessibility**.
- **Integrated advanced features** including a **payment API** and **search functionality**, improving **user engagement** by **30%**.

## Projects

**Background-Removal App** [App Link](#) 

- **Developed** a **SaaS platform** for **background removal**, integrating AI to remove backgrounds accurately.
- **Implemented features** like **Razorpay payment gateway**, credit-based usage system, **secure authentication with Clerk**, and seamless **image downloads**.
- **Tech Used:** React, MongoDB, Tailwind, Clerk, Razorpay, AI Integration

**Gemini Clone** [App Link](#) 

- **Built a fully responsive Gemini clone** using React and Google **Generative AI**, showcasing expertise in modern web development and AI integration.
- **Demonstrated strong skills** in creating user-centric, scalable, and interactive web applications.

**Netflix UI** [github/Netflix/repo](#) 

- **Developed a Netflix UI** clone using **ReactJS**, **Redux**, and **Tailwind CSS**, with hosting and authentication powered by **Google Firebase**.
- **Showcased** proficiency in building scalable, responsive, and **user-authenticated** web applications.

## Skills & Technologies

**Languages:** Java, JavaScript, SQL, HTML5, CSS

**Libraries:** ReactJS, NodeJS, Express, ReduxToolkit, Tailwind CSS

**Others:** MongoDB, Git, FireBase, Computer Networks, Object Oriented Programming
